NO SUS

Scammed? The 5-day kit

The NO SUS kit: the 5-day timeline, ten letters and sheets, an evidence log.

How to use this kit

1. Read the timeline first (section 1). Day 1 is hour by hour.
2. Call 1930 and file on cybercrime.gov.in before anything else, then send letter 1 to your bank the same day.
3. Fill every [bracket]. Write each reference number into the evidence log (sheet 8).
4. No reply from the bank in 30 days? Letters 5 and 6 are the escalations.

Inside

1. Scammed? The 5-day kit: the free steps
2. Letter 1. Unauthorised transaction complaint to your bank
3. Letter 2. What to say on 1930 and what to type on cybercrime.gov.in
4. Letter 3. UPI dispute route (app, PSP bank, NPCI) and card chargeback
5. Letter 4. FIR / zero FIR request to the police
6. Letter 5. Day 30: escalation to the bank's Principal Nodal Officer
7. Letter 6. After day 30: RBI Integrated Ombudsman
8. Letter 7. SIM and KYC lockdown
9. Letter 8. Evidence log
10. Letter 9. Do not do this
11. Letter 10. Checklist of documents to attach

Templates and steps, not legal advice. Nothing here promises money back. nosus.foo

Scammed? The 5-day kit: the free steps

Last checked: 9 Nov 2026. Portals and rules change, so check each link before you act.

Money left your account through UPI, a card, net banking or an app. Someone got your OTP, or talked you into paying, or you installed something you should not have. The next five days decide most of what can still be done. Two reports made in those days are what the rules turn on: one to your bank, one to 1930 / cybercrime.gov.in. Everything else in this kit builds on those two.

What the rules say, in plain words

Until 31 December 2026 the RBI circular of 6 July 2017 (RBI/2017-18/15) applies:

- Someone used your account without you doing anything (no OTP or PIN shared)? Tell the bank within **3 working days** of the bank's SMS alert and your liability is zero. Days 4 to 7: you may bear up to Rs 5,000 (basic savings), Rs 10,000 (most savings accounts, credit cards up to Rs 5 lakh limit) or Rs 25,000 (other accounts). After 7 working days: the bank's own policy decides.
- You shared the OTP or PIN, or paid yourself because someone tricked you? You bear the loss **until you report**. Anything that leaves after your report is the bank's loss. So report in the first hour.
- The bank must give you a complaint number at once, put a shadow credit in your account within 10 working days, and close the case within 90 days. The bank, not you, has to prove you were careless.

From 1 January 2027 RBI's amendment directions of 24 June 2026 (RBI/2026-27/167) take over for commercial banks (not small finance banks, payments banks or regional rural banks):

- Third-party breach reported within **5 calendar days** of the transaction: zero liability.
- New: if you were tricked into it yourself and lost up to Rs 50,000, the bank pays 85% of the net loss or Rs 25,000, whichever is less. Once in a lifetime. Only if you reported to **both** the bank **and** 1930 / cybercrime.gov.in within 5 calendar days. That is why this kit is five days.
- Banks must close the case in 45 days (60 if the money went abroad).

1930 and cybercrime.gov.in feed the Citizen Financial Cyber Fraud Reporting and Management System (CFCFRMS). Police send a notice to the receiving bank, which puts a hold on whatever is still in that account. If the money has already moved on, the trail is followed. A hold is not a refund; it is the only route to one.

What this kit cannot do. It cannot get your money back. Government replies in Parliament say more than Rs 11,158 crore was "saved" (held before it left) against 3.28 million complaints up to June 2026, but what is actually returned to victims is a small share of what is reported lost: Rs 167 crore of the Rs 52,969 crore reported between April 2021 and November 2025, about 0.3%. Counts of 2% to 10% that you may read elsewhere measure money restored out of what was blocked, not out of what was lost. The kit makes sure you did everything the rules ask, on time, in writing.

Day 1

Hour 0: stop and save

- Do not delete anything. Not the chat, not the SMS, not the call log, not the app.
- Screenshot every transaction alert, the UPI or card entry in the app, and the scammer's number, UPI ID or link.
- In your bank app: block the card, switch off UPI and net banking, or call the bank's 24x7 number and say "block everything now". Write down the time.
- If you installed an app the scammer sent (APK, "support", "screen share"), switch the phone to flight mode and uninstall it. Do not use that phone for banking until it is cleaned.

Hour 0 to 1: call 1930

- Dial **1930** from any phone. State police answer. Have ready: your bank, the amount, date and time, the 12-digit UPI transaction ID or UTR, the beneficiary UPI ID or account if you can see it, and your mobile number.
- You get a **14-digit acknowledgement number starting with 3** by SMS (sender XXNCRP). Write it in the evidence log (Letter 8). Letter 2 has the words to say.

Hour 1 to 2: call your bank's fraud line

- Say: "Unauthorised transaction, I want to register a complaint and get a complaint number." Do not hang up without the number. Give them the 1930 acknowledgement number.
- Ask for the fraud reference, and ask them to raise a hold request to the beneficiary bank.

Hour 2 to 4: file on cybercrime.gov.in

- The 1930 SMS tells you to complete the complaint on the portal with your acknowledgement number. Do it today. Letter 2 walks through every box.
- Upload the screenshots and the bank SMS. Save the PDF of the complaint.

Hour 4 to 6: dispute inside the payment app

- UPI: open the transaction in the app you paid from, choose "Raise dispute / Report fraud". Card: ask the card issuer for a chargeback. Letter 3 has the route and the words.

By tonight

- Email Letter 1 to the bank's fraud or disputes address and your branch. The phone call started the clock; the email is the paper.
- Change the passwords for email, bank app, UPI PIN and any account the scammer may have seen. Letter 7 is the list.
- Fill the evidence log (Letter 8) with everything from today.

Day 2: police

- Go to the nearest police station or cyber police station with Letter 4, the 1930 and portal acknowledgements, and printouts of the screenshots. Under section 173(1) of the BNSS they must take it "irrespective of the area where the offence is committed": that is a zero FIR. You are entitled to a free copy at once (section 173(2)).
- If the station refuses, ask for the refusal in writing, note the officer's name, and file on cybercrime.gov.in under "Other cybercrime" as well. Many states also allow e-FIR for this.
- Check the complaint status on cybercrime.gov.in. If any amount shows "put on hold", read the SMS the portal sends; it links to the release process.

Day 3: SIM, KYC, credit bureaus

- Sanchar Saathi (sancharsaathi.gov.in): "Know Mobile Connections in Your Name" to catch SIMs you did not take; "Chakshu" to report the scammer's number or message. Chakshu is not for the money loss itself; that stays with 1930.
- If you shared Aadhaar, PAN or a selfie: lock Aadhaar biometrics on myAadhaar, and pull your free credit report from each bureau (CIBIL, Experian, Equifax, CRIF High Mark) to watch for a loan in your name. Letter 7.
- Tell the people in your contacts if the scammer had your phone or WhatsApp. They will be next.

Day 4: chase the paper

- No written acknowledgement from the bank yet? Send Letter 1 again by speed post to the branch and keep the receipt.
- UPI dispute still "pending" in the app? Escalate to the PSP bank (the bank behind the app) with Letter 3.
- If your complaint on the portal shows money on hold, open the Money Restoration Module (link in the portal SMS; mrm-ncrp.mha.gov.in at last check), log in with the acknowledgement number and OTP, and raise a refund request. Below Rs 50,000 the police can release it without a court order; above that an FIR is needed, which is why Day 2 matters.

Day 5: the deadline check

Before the day ends, tick these. From 2027 the 5 days are calendar days counted from the transaction.

- [ ] Bank complaint number, in writing (email or app ticket).
- [ ] 1930 acknowledgement (14 digits, starts with 3) or portal acknowledgement (starts with 2).
- [ ] Police complaint or FIR copy.
- [ ] UPI or card dispute raised in the app.
- [ ] Evidence log filled, every screenshot saved with a date in the file name.
- [ ] Reminders set: day 10, day 30, day 45, day 90.

After day 5: the calendar

- **Day 10 (working days):** shadow credit due under the 2017 circular, para 9. Not there? Letter 5 cites it.
- **Day 30:** no written resolution? Letter 5 to the bank's Principal Nodal Officer.
- **Day 31 onwards:** Letter 6 to the RBI Integrated Ombudsman at cms.rbi.org.in. The 2026 scheme gives you 90 days from the end of the bank's 30 days (or from its reply) to file. Do not wait for the police case; the Ombudsman is about the bank's duty, not the thief.
- **Day 45 (from 2027) / Day 90 (now):** the bank's outer limit to close the case. If it cannot prove you were careless by then, it pays.
- Any time: a hold is lifted on the suspect account if nothing moves for 90 days, so keep the police case alive and ask for the section 106(3) BNSS release notice.

What not to do

No "recovery agent", no fee to "release" held money, no new OTP to "verify your refund", no deleting evidence to "move on". Letter 9 lists the traps and why each one works.

Sources

All sources, with the date checked and what was opened in full, are in sources.md. The main ones: RBI/2017-18/15 (6 July 2017), RBI/2026-27/167 (24 June 2026), the MHA SOP for NCRP-CFCFRMS dated 02.01.2026, NPCI's UPI dispute redressal mechanism, the RB-IOS 2026 salient features, BNSS 2023 section 173, BNS 2023 sections 318 and 319, IT Act sections 66C and 66D, sancharsaathi.gov.in.

Templates and steps, not legal advice.

Letter 1. Unauthorised transaction complaint to your bank

Send on day 1, after you have phoned the bank's fraud helpline and got a complaint number (put it in point 3). Email it to the bank's fraud or disputes address and to your branch, and submit it through the "report fraud" option in the bank app if there is one. No written acknowledgement in two days? Send it again by speed post and keep the receipt. One letter per account. Fill every [bracket]. Delete this box before sending.

Date: [DD Month YYYY]

To, The Branch Manager and the Fraud / Disputes Cell [Bank name], [Branch address] Email: [fraud email], [branch email]

Subject: Unauthorised transaction(s) of Rs [total] from account ending [last 4] on [date]. Request for acknowledgement, shadow credit and fraud reference.

Dear Sir or Madam,

1. I hold [savings / current] account ending [last 4], customer ID [ID], registered mobile [number], at your [branch] branch.

2. On [date] between [time] and [time], Rs [total] left my account in [number] transaction(s) I did not authorise: [for each: date and time, amount, mode, transaction ID / UTR / RRN, beneficiary]. [Choose one.] I shared no OTP, PIN or password with anyone. / A person claiming to be [who] deceived me into [sharing an OTP / approving a payment / installing an app]. I received nothing.

3. I reported this to your fraud helpline on [date, time] (complaint no. [number]), to 1930 on [date, time] (acknowledgement [14 digits]) and on cybercrime.gov.in on [date] (acknowledgement [number]).

4. Under RBI circular DBR.No.Leg.BC.78/09.07.005/2017-18 dated 6 July 2017 [and, from 1 January 2027, the RBI (Commercial Banks - Responsible Business Conduct) Third Amendment Directions, 2026], I ask you to: a. Acknowledge this complaint in writing with a registered complaint number (para 5). b. Keep my card, UPI and net banking blocked until I say otherwise. c. Credit the shadow reversal within 10 working days (para 9). d. Record that I reported within [3 working days of your alert / 5 calendar days]; my liability is zero (para 6(ii)). e. Give me the fraud reference number and the beneficiary bank and account or UPI handle in your records, and confirm a hold request has gone to that bank. f. Resolve the complaint within 90 days (para 10) in writing.

5. The burden of proving customer liability is the bank's (para 12).

6. Without a written resolution in 30 days, I will escalate to your Principal Nodal Officer and then the RBI Integrated Ombudsman (cms.rbi.org.in).

Yours faithfully, [Your name] [Your signature] [Phone] | [Email]

Attached: alert screenshots; 1930 and portal acknowledgements; statement lines for [date].

Tips

- Count the 3 working days from the bank's SMS alert, not from when you noticed. Write both times in the evidence log.
- Lost up to Rs 50,000 after being tricked, on or after 1 January 2027? Add: "Please also process compensation under para 76T of the 2026 Directions; I reported to both the bank and 1930 within 5 calendar days."
- Do not write "my mistake" or "I was careless" anywhere. State facts: who said what, what you did, when.

Templates and steps, not legal advice.

Letter 2. What to say on 1930 and what to type on cybercrime.gov.in

Call 1930 first, within the hour. Then complete the same complaint on cybercrime.gov.in the same day using the acknowledgement number from the SMS. Both are free. Portal screens change; the field names below are from the MHA SOP of 02.01.2026 and bank and police guides checked on 9 Nov 2026, so follow what the screen shows if it differs. Fill every [bracket].

Keep ready before you dial

- ☐ Your mobile number and the bank, wallet or card the money left from
- ☐ Each transaction: date, time, amount, 12-digit UPI transaction ID / UTR / RRN
- ☐ Beneficiary UPI ID, account number, merchant name or phone number, if visible
- ☐ The scammer's phone number, WhatsApp number, email, website or app name
- ☐ Screenshots of the alerts, the chat and the payment screen

What to say on 1930

"I want to report a financial cyber fraud. My name is [name], mobile [number]. On [date] at [time], Rs [amount] went from my [bank] account through [UPI / card / net banking]. Transaction ID [ID]. The money went to [UPI ID / account / merchant]. [One line on how: "a caller posing as [who] made me share an OTP" / "I paid for a job / investment that was fake" / "I did not do this transaction at all".] I have blocked my card and UPI. Please register this on CFCFRMS so the receiving bank can hold the amount."

Write down: the date and time of the call, and the **14-digit acknowledgement number starting with 3** that arrives by SMS from XXNCRP. If no SMS comes within an hour, call again and ask for it.

What to type on cybercrime.gov.in

1. **Register:** state, email, mobile, OTP. Use the number the SMS came to.
2. **Report Cyber Crime > Financial Fraud > File a Complaint > I Accept.** If you have a 1930 acknowledgement, look for the option to complete that complaint and enter the number.
3. **Category / sub-category:** pick the closest: UPI fraud, debit or credit card fraud, internet banking, investment or job fraud, loan app, OTP fraud, fake customer care.
4. **Incident details:**
    - Date and time: [date, time of the first debit]
    - Delay in reporting, reason: [none / "noticed on [date] because [reason]"]
    - Where did it happen: [app or site name]
    - Description (paste):

"On [date] at about [time], I received [a call / message / link] from [number or handle] claiming to be [who]. They asked me to [what]. As a result, Rs [amount] was debited from my [bank] account no. ending [last 4] in [number] transaction(s): [list: time, amount, transaction ID, beneficiary]. I did not receive any goods, service or refund. I called 1930 at [time] (acknowledgement [number]) and my bank at [time] (complaint [number]). I have blocked my card and UPI. I request that the amount be put on hold in the beneficiary account and that an FIR be registered."

5. **Transaction details:** bank or wallet name, account or card ending digits, 12-digit transaction ID / UTR, date, amount. One row per transaction. Attach the statement or screenshot.
6. **Suspect details:** phone numbers, UPI IDs, account number and bank, website or app, social media handle. "Unknown" where you do not know. Upload the screenshots.
7. **Complainant details:** name, date of birth, address, your ID document.
8. **Preview and Submit > Confirm and Submit.** Download the PDF. The acknowledgement for a portal complaint is 14 digits and starts with **2**.

After you submit

- Track it under "Track your complaint" every two days.
- The police forward it to CFCFRMS; the receiving bank holds whatever is still there and the portal sends you an SMS and email about any hold, with a link to the release process. Keep that SMS.
- Money on hold? Open the Money Restoration Module (mrm-ncrp.mha.gov.in at last check), log in with the acknowledgement number and OTP, check the "Restorable Amount", enter the account and IFSC where the refund should come, upload your PAN, submit. You get a request ID like MR2026...
- An acknowledgement number is not an FIR. Letter 4 gets you the FIR.

Templates and steps, not legal advice.

Letter 3. UPI dispute route (app, PSP bank, NPCI) and card chargeback

NPCI's dispute mechanism fixes the order: first the app you paid from, then the PSP bank behind that app, then your own bank, then NPCI, and only after those the RBI Ombudsman. Each level needs the earlier reference number, so go in order and write each number in the evidence log. Fill every [bracket].

Step A. In the UPI app (day 1)

Open the transaction in [Google Pay / PhonePe / Paytm / BHIM / your bank's app] > Help or Raise dispute > "Fraud / did not authorise" (or the closest option). Paste:

"Unauthorised / fraudulent transaction. I did not intend this payment. UPI transaction ID [12 digits], Rs [amount], [date, time], to [beneficiary UPI ID]. Reported to 1930 (ack [number]) and my bank (complaint [number]). Please raise a dispute with the beneficiary bank and share the dispute reference."

Save the ticket number. The app must show you the status of the complaint inside the app.

Step B. PSP bank (day 4, if unresolved)

Find the PSP bank in the app's terms or support page (for example, the bank whose name appears in your UPI handle, like @okaxis, @ybl, @paytm). Email its UPI grievance or nodal address:

Subject: Escalation of unresolved UPI dispute [app ticket number], Rs [amount], UPI ID [transaction ID]

"My dispute raised in [app] on [date], ticket [number], about an unauthorised UPI transaction of Rs [amount] on [date] (transaction ID [ID], beneficiary [UPI ID]) is unresolved. Under NPCI's UPI dispute redressal mechanism the next level after the TPAP is the PSP bank. Please treat this as a chargeback / fraud dispute with the beneficiary bank, confirm whether the amount is held, and send me your reference number within 7 days. 1930 acknowledgement: [number]. Bank complaint: [number]."

Step C. Your bank

This is Letter 1. If you did not send it yet, send it now with the app ticket and PSP reference added.

Step D. NPCI (after A to C)

Go to npci.org.in > "Get in touch" or the UPI dispute redressal page > complaint form. Enter: nature of transaction (fraud / unauthorised), UPI transaction ID, date, amount, your UPI ID, the beneficiary UPI ID, the bank name, and in "complaint details" the same text as Step B with all three reference numbers. NPCI replies by email with a reference.

Step E. RBI Ombudsman

After 30 days with no resolution from the bank, Letter 6.

Cards: chargeback

Debit or credit card? The same 2017 and 2026 RBI rules on liability apply (card present and card not present). Email the card issuer:

Subject: Chargeback request, unauthorised card transaction(s), card ending [4 digits]

"On [date] my card ending [4 digits] was charged Rs [amount] at [merchant / description] (reference [number]) without my authorisation. I have blocked the card (ref [number]) and reported to 1930 (ack [number]). Please raise a chargeback for these transactions under the card network's fraud reason code, credit the shadow reversal [within 10 working days under RBI circular DBR.No.Leg.BC.78/09.07.005/2017-18 para 9 / within 5 calendar days for credit cards under para 76R of the 2026 Directions], and send me the dispute reference and the form, if any, you need signed."

Sign and return any dispute form the same day you get it. Chargeback windows set by the card networks are measured in days, not months.

Failed transaction, not fraud?

If money was debited but the payment simply failed (merchant never got it, beneficiary never credited), that is a different RBI rule: RBI/2019-20/67 of 20 September 2019 gives the bank T+1 to T+5 days to reverse it on its own and Rs 100 per day after that. Quote that circular instead.

Templates and steps, not legal advice.

Letter 4. FIR / zero FIR request to the police

Take this on day 2 to the nearest police station or cyber police station, with two copies. Hand one in, get the other stamped with date, time and the receiving officer's name. Section 173(1) of the Bharatiya Nagarik Suraksha Sanhita 2023 lets any station record it "irrespective of the area where the offence is committed" (a zero FIR, transferred later to the right station). Section 173(2) gives you a copy at once, free. Fill every [bracket]. Delete this box before sending.

Date: [DD Month YYYY]

To, The Station House Officer [Police station name], [City]

Subject: Cheating and cyber fraud of Rs [amount] on [date]. Request to register FIR (zero FIR if outside your jurisdiction) and for a free copy under section 173(2) BNSS.

Sir or Madam,

1. I am [full name], age [age], residing at [address], mobile [number], email [email].
2. On [date] at about [time], I received [a call / SMS / WhatsApp message / link] from [number or handle]. The person claimed to be [who] and told me [what]. Believing this, I [shared an OTP / approved a UPI request / installed an app / paid for a job or investment]. Rs [total] was taken from my [bank] account ending [last 4] in [number] transactions: [for each: date and time, amount, transaction ID, beneficiary]. I received nothing.
3. I have called 1930 on [date, time] (acknowledgement [14 digits]), filed on cybercrime.gov.in on [date] (acknowledgement [number]), complained to my bank on [date] (complaint [number]) and blocked my card and UPI.
4. The facts disclose offences under sections 318(4) (cheating) and 319(2) (cheating by personation) of the Bharatiya Nyaya Sanhita 2023, and sections 66C (identity theft) and 66D (cheating by personation using a computer resource) of the Information Technology Act 2000.
5. I request you to: a. Register an FIR. If the offence falls outside this station's area, register it as a zero FIR under section 173(1) BNSS and transfer it. b. Give me a free copy of the FIR at once under section 173(2) BNSS. c. Register the complaint on CFCFRMS (MHA SOP for NCRP-CFCFRMS dated 02.01.2026, para 6.4). d. Once any amount is held, issue the notice under section 106(3) BNSS to the bank for its release to me (Process 1 of that SOP). e. Tell me the name and number of the investigating officer.
6. Attached: transaction and message screenshots; 1930 and portal acknowledgements; bank statement lines; ID copy with purpose and date written across it.

Yours faithfully, [Your name] [Your signature] [Phone] | [Email]

Received by: [officer name, rank] on [date, time]. Station stamp.

Tips

- If the station refuses, ask for the refusal in writing or note the officer's name and time. Write to the Superintendent of Police or Commissioner with this letter attached, and file under "Other cybercrime" on cybercrime.gov.in. Several states accept e-FIR for these cases; an e-FIR needs your signature within 3 days.
- You are not asking the police to decide who is guilty. You are asking them to record it so a bank hold can be released to you.

Templates and steps, not legal advice.

Letter 5. Day 30: escalation to the bank's Principal Nodal Officer

Use this on day 30 after Letter 1 if the bank has not resolved the complaint in writing, or earlier if the shadow credit did not arrive by the tenth working day. Every bank lists a Principal Nodal Officer (name, email, address) on its "Grievance redressal" page; that is the last step inside the bank before the RBI Ombudsman. Email it and send it by speed post. Fill every [bracket]. Delete this box before sending.

Date: [DD Month YYYY]

To, The Principal Nodal Officer [Bank name], [Head office address] Email: [PNO email]

Subject: Escalation. Unauthorised transaction complaint no. [bank complaint number] dated [date], Rs [amount], account ending [last 4]. No resolution in 30 days.

Dear Sir or Madam,

1. I am [full name], account no. ending [last 4], customer ID [ID], registered mobile [number].
2. On [date] I reported unauthorised electronic transactions of Rs [amount] (copy attached). I also reported to 1930 (acknowledgement [number]), on cybercrime.gov.in (acknowledgement [number]), and to the police (FIR no. [number], [station], [date]).
3. Since then: [no written reply / a reply on [date] saying [one line], which does not resolve the matter because [reason]]. The shadow credit due within 10 working days under para 9 of RBI circular DBR.No.Leg.BC.78/09.07.005/2017-18 dated 6 July 2017 [has not been made / was made on [date] and reversed on [date] without any finding].
4. Under that circular the bank bears the burden of proving customer liability (para 12) and must resolve the complaint within 90 days (para 10) [45 calendar days under the RBI (Commercial Banks - Responsible Business Conduct) Third Amendment Directions, 2026]. I reported within [3 working days of your alert / 5 calendar days], so my liability is zero (para 6(ii)).
5. I ask you to, within 7 days: a. Confirm the status of the fraud investigation and the hold request to the beneficiary bank, with reference numbers. b. Credit or restore the shadow reversal, value-dated to [transaction date]. c. Give me a written final decision with reasons, or the date by which it will come.
6. If I do not receive a resolution by [date], I will file with the RBI Integrated Ombudsman at cms.rbi.org.in, attaching this letter.

Yours faithfully, [Your name] [Your signature] [Phone] | [Email]

Attached: Letter 1 and proof of sending; bank acknowledgement and any reply; 1930 and portal acknowledgements; FIR copy; evidence log.

Tip: lost up to Rs 50,000 after being tricked, on or after 1 January 2027? Add to point 5: "d. Pay compensation under para 76T of the 2026 Directions within 5 calendar days of this application."

Templates and steps, not legal advice.

Letter 6. After day 30: RBI Integrated Ombudsman

Use this only after Letter 1 and 30 days with no reply, or a reply that does not fix it. Under the Reserve Bank Integrated Ombudsman Scheme 2026 (in force from 1 July 2026) you then have 90 days to file. Filing is free. Portal: **cms.rbi.org.in**. Email: crpc@rbi.org.in. Post: Centralised Receipt and Processing Centre, 4th Floor, Central Vista, Reserve Bank of India, Sector 17, Chandigarh 160017. Helpline 14448. The Ombudsman decides whether the bank did its duty; it does not chase the thief. Fill every [bracket].

CMS portal, step by step

1. cms.rbi.org.in > File a complaint > mobile number, OTP.
2. Complainant details: name, address, email. Choose "Individual".
3. Entity: pick the bank. Category: unauthorised electronic transaction / digital transaction fraud, or the closest option.
4. Complaint already made to the bank? Yes. Date: [Letter 1 date]. Number: [bank number]. Reply received? [Yes / No], date [date].
5. Matter before a court, consumer forum or arbitrator? No. (Correct this if it is not true.)
6. Paste the text below. Upload: Letter 1 and proof of sending, Letter 5, bank replies, 1930 and portal acknowledgements, FIR, statement lines, evidence log.
7. Submit. Save the complaint number and the PDF.

Subject: Complaint against [bank name]: unauthorised electronic transactions of Rs [amount] on [date], not resolved in 30 days

1. **Complainant:** [full name], [address], mobile [number], email [email]. Account no. ending [last 4] at [branch].

2. **What happened:** On [date] Rs [amount] was debited from my account in [number] transactions I did not authorise (transaction IDs [list]). [I did not share any credentials. / I was deceived by a person posing as [who] into [action].] I reported to the bank's helpline on [date, time] (complaint [number]), to 1930 (acknowledgement [number]), on cybercrime.gov.in (acknowledgement [number]) and to the police (FIR [number], [station], [date]).

3. **What the bank did:** [No written reply. / Reply dated [date] saying [one line].] No shadow credit was made within 10 working days as para 9 of RBI circular DBR.No.Leg.BC.78/09.07.005/2017-18 dated 6 July 2017 requires. I escalated to the Principal Nodal Officer on [date]; [no reply / reply dated [date]].

4. **Deficiency:** I reported within [3 working days of the bank's alert / 5 calendar days], so my liability is zero under para 6(ii). The bank has not proved any negligence on my part (its burden under para 12) and has not resolved the complaint within the 90 days of para 10 [45 days under the 2026 Directions for transactions from 1 January 2027].

5. **Relief sought:** a. Reversal of Rs [amount], value-dated to [transaction date], with interest. b. Compensation for the time, expense and distress caused, as the Scheme allows. [c.

Compensation under para 76T of the 2026 Directions, if the loss was up to Rs 50,000.]

6. The matter is not pending before any court, tribunal, consumer forum or arbitrator, and I have filed no other complaint on it with the Ombudsman.

[Your name], [date]

Tips

- The 90 days run from the end of the bank's 30 days or from the bank's final reply. File early.
- A bank rejection that gives no reasons is still "no resolution". Attach it.
- Appeal against the Ombudsman's decision goes to the RBI Appellate Authority within 30 days.
- A consumer commission (consumerhelpline.gov.in, or the district commission) is the other route; you cannot run both on the same matter at once.

Templates and steps, not legal advice.

Letter 7. SIM and KYC lockdown

Do this on day 1 (passwords) and day 3 (the rest). The scammer may still have your number, your documents or a copy of your screen. Each box below closes one door. Tick as you go and note the date in the evidence log.

Tonight: passwords and the phone

- ☐ Email first. Change the password of the email linked to your bank and UPI. Turn on two-step verification. Check "forwarding" and "recovery email" for anything you did not set.
- ☐ Bank app login, net banking password, transaction password, UPI PIN, card PIN. New ones, not reused.
- ☐ WhatsApp: Settings > Linked devices: log out everything you do not recognise. Turn on two-step verification.
- ☐ Remove any app the scammer asked you to install: AnyDesk, TeamViewer, QuickSupport, "SBI support", a .apk from a link. If you installed an APK, back up photos and factory-reset the phone before using it for banking again.
- ☐ Google or Apple account: Security > Your devices: sign out unknown devices.
- ☐ Autopay and mandates: in each UPI app, check Autopay / Mandates and cancel what you did not set.

Day 3: your number (Sanchar Saathi, sancharsaathi.gov.in)

- ☐ **Know Mobile Connections in Your Name** (TAFCOP): enter your number and OTP. Every SIM on your ID is listed. Mark any you did not take as "Not my number" and report.
- ☐ **Chakshu**: report the scammer's number, SMS or WhatsApp message as suspected fraud communication. Pick the category (KYC, impersonation, job, investment), add the screenshot, verify with OTP. Chakshu is for the message, not the money loss; that is 1930.
- ☐ Phone lost or taken? **Block your lost/stolen mobile handset** (CEIR) with the IMEI and the police complaint copy.
- ☐ Call your telecom operator: ask whether a SIM swap or duplicate SIM was requested on your number in the last 30 days, and ask them to add a note that no SIM change is allowed without you present with ID.
- ☐ Got a call from a +91 number that turned out to be from abroad? "Report Incoming International Call with Indian Number" on the same portal.

Day 3: Aadhaar, PAN and credit bureaus

Only if you shared Aadhaar, PAN, a selfie, a video call with your face, or a photo of a card.

- ☐ myAadhaar (myaadhaar.uidai.gov.in) or the mAadhaar app: **Lock biometrics**. Check **Authentication history** for the last six months. Unknown entry? Write to the company named in it and report to help@uidai.gov.in or 1947.
- ☐ Pull one free credit report from each bureau this year (RBI lets you): CIBIL (cibil.com), Experian (experian.in), Equifax (equifax.co.in), CRIF High Mark (crifhighmark.com). Look for

loans, cards or enquiries you did not make. Save the PDFs.

- [ ] If a bureau's app offers a "credit lock" or a fraud alert, switch it on; check on each bureau's own site, since what is offered changes. A locked report stops most new lenders from pulling it.
- [ ] Found a loan in your name? That is a different case with its own letters: the NO SUS "My ID was misused" kit at nosus.foo/id-misuse covers the lender and bureau disputes.
- [ ] DigiLocker: check Issued documents and Activity for shares you did not make.
- [ ] Income tax portal: log in, check that your registered mobile and email are still yours.

Day 3: people

- [ ] Tell your contacts in one message: "My number / WhatsApp was used in a scam on [date]. Ignore any request for money or OTP from me until I call you myself."
- [ ] If the scammer has photos or a video of you and threatens to post them: do not pay. Report under "Sexually explicit / sextortion" on cybercrime.gov.in and keep the threats as evidence.

Later: watch for 90 days

- [ ] Monthly: credit report from a different bureau each time.
- [ ] Any "your refund is ready" call or message about this case is the next scam. Letter 9.

Templates and steps, not legal advice.

Letter 8. Evidence log

Keep this sheet up to date from hour one. Add a row every time you send, receive or call. Copy it into a notebook, a spreadsheet or a phone note. It goes with Letters 5 and 6 and to the police. Save every file with the date first, like `2026-11-09_1930-ack.jpg`. Fill every [bracket].

Case: scam of Rs [total], [date] | **Your name:** [name] | **Bank complaint no.:** [number] | **1930 / NCRP ack:** [number] | **FIR no.:** [number]

The transactions

#	Date and time	Amount	Mode	Transaction ID / UTR / RRN	Beneficiary (UPI ID / account / merchant)	Bank alert SMS time	Screenshot file
1	[date, time]	Rs [amount]	[UPI / card / net banking]	[ID]	[details]	[time]	[file]
2							

The scammer

What	Detail	Screenshot file
Phone / WhatsApp number(s)	[numbers]	[file]
Name they used, organisation they claimed	[details]	[file]
UPI ID / account / QR / link / app name	[details]	[file]
What they said, in order (one line each)	[lines]	[chat export file]

What you did and when

#	Date and time	Action	With whom	Reference / acknowledgement no.	Proof saved (file)	Reply due	Done?
1	[date, time]	Blocked card / UPI / net banking	[bank app / helpline]	[ref]	[screenshot]		
2	[date, time]	Called 1930	1930	[14 digits, starts 3]	[SMS screenshot]		
3	[date, time]	Called bank fraud line	[bank]	[complaint no.]	[note]	ack in writing: [date]	

#	Date and time	Action	With whom	Reference / acknowledgement no.	Proof saved (file)	Reply due	Done?
4	[date, time]	Filed on cybercrime.gov.in	Portal	[14 digits, starts 2]	[PDF]		
5	[date, time]	Dispute raised in UPI app / chargeback	[app / issuer]	[ticket]	[screenshot]		
6	[date]	Letter 1 emailed and posted	[bank]	[email, postal receipt]	[copy]	+30 days: [date]	
7	[date]	Passwords changed, devices logged out					
8	[date]	Police complaint / FIR (Letter 4)	[station]	[FIR no.]	[copy]		
9	[date]	Sanchar Saathi: TAFCOP, Chakshu	DoT	[request ID]	[screenshot]		
10	[date]	Aadhaar biometrics locked; credit reports pulled	UIDAI, bureaus		[PDFs]		
11	[date]	Portal status checked; amount on hold?	Portal		[screenshot]		
12	[date]	Money Restoration Module request	MRM	[MR... ID]	[screenshot]		
13	[date]	PSP bank / NPCI escalation (Letter 3)	[bank / NPCI]	[ref]	[copy]	+7 days: [date]	
14	[date]	Shadow credit received? (due 10 working days)	[bank]		[statement]		
15	[date]	Day 30: Letter 5 to Principal Nodal Officer	[bank]	[ref]	[copy]	+7 days: [date]	
16	[date]	Day 31+: Letter 6 on cms.rbi.org.in	RBI	[complaint no.]	[PDF]	90-day limit: [date]	

Calls and messages after the scam

Date and time	Number or sender	Said what	Saved (recording, screenshot)
[date, time]	[number]	[one line]	[file]

Anyone who calls about "your refund" goes in this table, not in your bank app.

Dates to remember

- Bank alert SMS time: [time]. 3 working days end: [date]. 5 calendar days end: [date].
- Shadow credit due: [Letter 1 date + 10 working days]
- Bank resolution due: [Letter 1 date + 90 days] (45 days for transactions from 1 January 2027)
- Letter 5 (nodal officer): [Letter 1 date + 30 days]
- RBI Ombudsman window closes: [Letter 5 date + 90 days]

Templates and steps, not legal advice.

Letter 9. Do not do this

Every item here has taken money from someone who had already been scammed once. The second scam works because you are hoping. Read this before you answer any call about your case.

The "recovery agent"

Someone finds you (a comment under your post, a DM, a Telegram group, a Google ad for "cyber fraud recovery", a call "from the cyber cell") and says they can get your money back. They know the amount, maybe the date. They want a fee: "processing", "legal", "court stamp", "unfreezing charge", 5% in advance.

- Nobody outside the police and the banks can release a held amount. The release goes through the Money Restoration Module and a notice under section 106(3) BNSS, from the investigating officer to the bank, to your account. There is no step where a private person helps.
- Anyone who asks for money to recover money is the scammer, or his buyer. Victim lists are sold on.
- "Lawyers" who charge a fee to "file your case" on cybercrime.gov.in: the portal is free and takes 20 minutes. Letter 2.

"Your refund is ready, share the OTP"

A call from "the bank", "RBI", "NPCI", "1930" or "the cyber police" says a refund is approved and they need an OTP, a UPI PIN, or for you to "accept a collect request" to receive it. Money is never received by entering a PIN or OTP. Hang up. Call the bank on the number printed on your card.

"Pay to unfreeze"

If your own account gets frozen because a scam payment passed through it, or a hold lands on money you received legitimately, the route is your own bank branch, which must submit a grievance on the CFCFRMS module within 7 days; the police then have 15 days to decide (MHA SOP of 02.01.2026, section 10.1). No fee exists anywhere in that process. Anyone who offers to "unfreeze it for a charge" is lying.

Fake notices

PDFs on WhatsApp or email with an I4C, CBI, customs, RBI or TRAI letterhead saying you are under investigation and must pay or "verify" to avoid arrest. There is no "digital arrest" in Indian law. Hang up, do not pay, report the number on Chakshu and the message on cybercrime.gov.in.

Do not delete

- Not the chat, even if it is embarrassing. Export it.

- Not the app the scammer made you install, until you have screenshots of its name and permissions. Then uninstall.
- Not the SMS alerts. They fix the time your 3 working days started.
- Not your bank account. Closing it makes shadow credit and refunds harder.

Do not say "my mistake" in writing

State facts in every letter: who called, what they said, what you did, when. Whether you were careless is for the bank to prove (RBI 2017 circular, para 12). Do not do its work for it.

Do not pay anything more to the same people

"Pay the tax to withdraw your profit", "pay the fee to release your salary", "pay the penalty or the loan goes to your contacts". Every one is the same scam continuing. The money already lost does not come back by paying more.

Do not go quiet

Tell one person you trust today. Shame is what the second scam runs on.

Do not expect the bank to call you

Set the reminders in Letter 8 and chase on the dates. Silence from the bank for 30 days is itself what Letters 5 and 6 are for.

Templates and steps, not legal advice.

Letter 10. Checklist of documents to attach

Tick each item and attach it to the letter it belongs to. Save every file with the date first, like `2026-11-09_FIR.pdf`. Keep the originals. Send copies.

Cover your ID copies first

Cover the first 8 digits of your Aadhaar. Write the purpose and the date across each copy, for example "For fraud complaint to [bank] only, [date]". The NO SUS masking tool at nosus.foo/mask-aadhaar-copy does this in your browser and does not upload the image.

The checklist

Tick	Document	Letters that need it
[ ]	Screenshots of each transaction alert (SMS and app), with the time visible	1, 2, 3, 4, 5, 6
[ ]	Bank statement lines for the day, downloaded as PDF	1, 2, 4, 6
[ ]	Screenshots of the scammer's number, chat, link, QR code or app	2, 4
[ ]	Chat export (WhatsApp > More > Export chat)	2, 4
[ ]	1930 acknowledgement SMS (14 digits, starts with 3)	1, 3, 4, 5, 6
[ ]	cybercrime.gov.in complaint PDF and acknowledgement (starts with 2)	1, 3, 4, 5, 6
[ ]	Bank helpline complaint number, with the date and time of the call	1, 3, 5, 6
[ ]	Card / UPI block confirmation (SMS or screenshot)	1, 3
[ ]	UPI app dispute ticket, PSP bank reference, NPCI reference	3, 5, 6
[ ]	Letter 1 and proof of sending (sent email, speed-post receipt)	5, 6
[ ]	Bank's written acknowledgement and any reply	5, 6
[ ]	FIR / zero FIR copy, or stamped complaint receipt	1, 5, 6
[ ]	Letter 5 and proof of sending	6
[ ]	Portal status screenshot showing any amount on hold; Money Restoration Module request ID	4, 5, 6
[ ]	ID proof copy (Aadhaar, first 8 digits covered, or PAN), purpose and date written	4, 6
[ ]	Sanchar Saathi request IDs and screenshots	8
[ ]	The evidence log (Letter 8)	4, 5, 6

Before you send

- [ ] Every [bracket] in the letter is filled.
- [ ] The transaction IDs match the bank statement, digit for digit.
- [ ] The dates and times on the letter and in the evidence log agree.
- [ ] Nothing in the letter says "my mistake" or "I was careless".
- [ ] You have a copy of what you are sending.
- [ ] You wrote down when you sent it and when a reply is due.
